## Finnish Marine Industries

Finnish Marine Industries is a co-operation forum for high-technology maritime solution providers, leading marine equipment manufacturers, turn-key suppliers, designers, software and system providers as well as shipbuilding, ship repair and offshore yards.

This directory presents the association's member companies and the wide range of high-technology and services the Finnish marine industry offers.

### FACTS & FIGURES

Finnish marine industry  
employs 30 000 people

Annual turnover  
8 billion €

1 000 companies  
at the branch

Source: Brahea Centre at the University of Turku

## **ABB Oy**

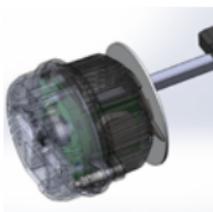

ABB (ABBN: SIX Swiss Ex) is a pioneering technology company with a comprehensive offering for digital industries and with a history of innovation spanning more than 130 years. ABB business line Marine & Ports is transforming the marine industry through electric, digital and connected solutions. ABB's innovative technologies are redefining the future, bringing new levels of reliability, efficiency and sustainability to shipping and making ports and terminals safer, greener and more productive.

[www.abb.com/marine](http://www.abb.com/marine)

---

## **AirD Fin Oy**

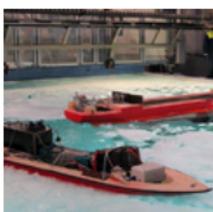

AirD Fin Oy, established in 2010, specializes in designing, manufacturing, selling and marketing smart ventilation head units. The smart ventilation head units offer high air quality and energy efficient demand based ventilation in various environments from real estates to cruise ships. AirD solution is designed according to the customer's specifications and requirements of the interior. Data collection, energy efficiency, easy installation and maintenance and good design are the core of AirD Fin Oy.

[www.aird.fi](http://www.aird.fi)

---

## **Aker Arctic Technology Oy**

Aker Arctic Technology Oy specializes in development, design, engineering, consulting and testing services for ice-going vessels, icebreakers, arctic cruise & expedition vessels, offshore marine structures, marine transport solutions and ports. The company operates a special test facility in Helsinki. In addition, Aker Arctic markets and sells complete ice-going ship projects. The company's past references include icebreakers, Arctic or Antarctic research vessels, a variety of cargo vessels and concepts for offshore structures.

[www.akerarctic.fi](http://www.akerarctic.fi)

### **Alfa Laval Aalborg Oy**

Alfa Laval Aalborg is specialized in marine boilers with Aalborg™ products. The company's innovative solutions for heat recovery systems and fired boilers in cruise vessels improve customers' energy efficiency and emissions reductions, as well as savings in fuel costs. Through the global Alfa Laval group there is available a wide variety of products for heat transfer, separation and fluid handling for the marine industry. Alfa Laval Aalborg Oy is a member of Cleantech Finland.

[www.alfalaval.fi](http://www.alfalaval.fi)

---

### **Allstars Engineering Oy**

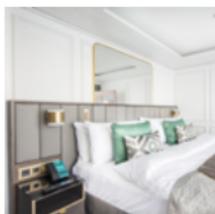

Allstars Engineering has a long-term experience of comprehensive project management and design engineering services for the marine, offshore, process and machine technology industries. The company's core competence lies in project management, Cruise Ship, Ro-PAX and icebreaker basic and detail design. Renowned Finnish engineering education combined with extensive experience makes Allstars a reliable partner that delivers tailor-made and high-class solutions to meet customer needs. Allstars has made a remarkable footprint to maritime industry during its 30-year history.

[www.aegroup.fi](http://www.aegroup.fi)

---

### **ALMACO Group Oy**

ALMACO Group is a full-turnkey contractor for the construction, modernization and maintenance of galleys, provision stores, refrigeration machinery, laundries, cabins and living quarters for the marine and offshore industries. ALMACO delivers advanced solutions such as galley energy management and refrigeration equipment monitoring systems, among others. The company has carried out +300 projects around the world, built or modernized the catering areas on +200 vessels and delivered over 25 000 cabins since it was established in 1998.

[www.almaco.cc](http://www.almaco.cc)

### **Antti-Teollisuus Oy**

Antti-Teollisuus Oy, established in 1952, is a family-owned business manufacturing metal products. The company's product portfolio includes accommodation and interior fire and sound reduction doors for cruise, ferry and offshore applications. Antti-Teollisuus has produced more than quarter of a million doors for more than 300 ships and offshore applications. Production facilities are located in Salo, south-western Finland.

[www.antti-teollisuus.fi](http://www.antti-teollisuus.fi)

---

### **APX-Metalli Oy**

APX-Metalli Oy, established in 1986, manufactures metal constructions and has locations in Kaarina and Pyhäranta in Finland. Oy Western Shipyard Ltd, established in 1994, is APX-Metalli Oy's subsidiary and 100 % in domestic ownership. The shipyard's main industry is the repair work and docking of vessels and floating constructions, but also newbuildings are included. Both APX-Metalli and WSY specialize in steel and aluminium products, welded structures, installation and repair work and turn-key deliveries. WSY is located in Teijo, in southern Finland.

[www.apx.fi](http://www.apx.fi)

---

### **Arctech Helsinki Shipyard Inc.**

Arctech Helsinki Shipyard Inc. is a builder of special vessels for demanding conditions and routes. Arctech's product portfolio includes icebreakers, offshore vessels, passenger vessels and ferries with unique technical solutions complying with all operational safety and environmental requirements. The shipyard is located in the heart of Helsinki, Finland.

[www.arctech.fi](http://www.arctech.fi)

### Atexor Oy

Atexor Oy develops and manufactures EX-lighting and power distribution systems for customers in the oil and gas industries. These products can be used in oil refineries, drill ships, jack-up rigs, FPSO's, semi-submersible rigs and alike. In addition, Atexor offers products with GOST, DNV and other product relevant certifications. All products are designed and manufactured in Finland. Atexor is owned by Teknopower.

[www.atexor.com](http://www.atexor.com)

### Beacon Finland Ltd Oy

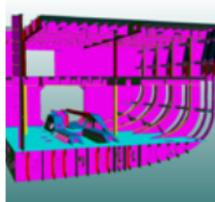

Beacon Finland Ltd Oy, established in 1987, is a naval architectural consulting company located in Rauma, Finland. Beacon works primary with ship-owners, shipyards and ship equipment manufacturers. It provides ship design, design and sales of ship equipment for the offshore industry (drilling FPSO, FLNG) and the marine transportation industry (i.e. JAK® Coupling System), as well as supervision and management of ship repair and conversions. In addition, Beacon offers related R&D, design, noise & vibration and strength analysis services.

[www.beaconfinland.com](http://www.beaconfinland.com)

### Bluetech Finland Ltd

Bluetech Finland Ltd is a specialist in cruise, ro-pax and cargo ship design, offering engineering services for ship owners, shipyards and marine suppliers. Expertise comprises all ship design disciplines including concept, basic and detail design. Bluetech also develops own cargo ship designs with several units in operation. The company was established in February 2013 and is based in Helsinki. Additionally, Bluetech has offices in Vietnam, India and China.

[www.bluetechfinland.com](http://www.bluetechfinland.com)

## **CADMATIC Oy**

CADMATIC develops digital and intelligent 3D-based design, engineering and information management software solutions for the marine and plant industries. CADMATIC Marine Design software is a complete solution for large, medium-sized and small shipyards, design and engineering offices and subcontractors. With CADMATIC you can complete the most complicated projects, regardless if you are doing initial design, basic design, detail design or production information.

[www.cadmatic.com](http://www.cadmatic.com)

---

## **Caverion Suomi Oy**

Caverion designs, builds, operates and maintains intelligent and energy-efficient solutions for buildings, industries and infrastructures in Northern, Central and Eastern Europe. In the marine industry, Caverion offers design of electrical and piping systems, installation and maintenance services for different types of vessels. In Finland and in Denmark, Caverion has participated in the construction of a wide range of vessels; from luxury cruise ships to advanced container ships and vessels used by the navy.

[www.caverion.com](http://www.caverion.com)

---

## **Comatec Group**

Comatec Group, established in 1986, provides engineering design, project management and expert services for the technology industry. In the marine sector, Comatec offers electrical and automation design from the sales project stage to manufacturing design. In addition, Comatec provides mechanical design and structural FEM analysis. The company's special areas of expertise are cruise liners and ice-breaking vessels.

[www.comatec.fi](http://www.comatec.fi)

## Deltamarin Ltd

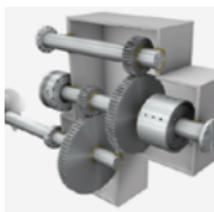

Deltamarin specializes in ship design, offshore engineering and construction services for the marine and offshore industries worldwide. The company's expertise comprises fit-for-purpose designs in all ship types and offshore vessels. Deltamarin delivers services from concept design development and engineering to project management. For operating vessels, it offers a wide range of life-long support services. In addition, Deltamarin develops own concepts and platforms for different vessel types (e.g. ro-pax and cargo).

[www.deltamarin.com](http://www.deltamarin.com)

---

## EIE Maskin Oy

EIE Maskin Group is a distributor of mechanical transmission components in Sweden, Norway and Finland. The company's main market is within marine and offshore applications. EIE Maskin supplies components such as clutches and brakes, both for propulsion and winch applications, as well as rack and pinion components. In addition, the company provides heavy duty linear rollers and profiles for ramps, hatches and other similar applications, as well as other components upon request.

[www.eie.fi](http://www.eie.fi)

---

## Elomatic Marine Engineering Oy

Elomatic Marine Engineering Oy specializes in a wide range of design, engineering and project management tasks for a comprehensive range of vessel types. Elomatic has extensive know-how in cruise ships and ferries, special vessels, conversions and retrofits, marine concepts and information management solutions. The company's services cover all disciplines and the full life cycle of the product from feasibility studies and pre-design to detail design, production support, site supervision and lifecycle support.

[www.elomatic.com](http://www.elomatic.com)

## Emmanoa Oy

Emmanoa Oy offers consulting, advisory, market analysis/market support, business planning/execution and IPR services related to shipbuilding and other maritime industry businesses. The company has a background of 50 years in shipbuilding with the global coverage of market, international cooperation and technology. The specific areas of expertise are related to cruise, ferry and arctic businesses.

Eero Mäkinen  
eero.k.makinen@gmail.com

## Etteplan Oyj

Etteplan Oyj offers industrial equipment and facility engineering, embedded systems, IoT and technical documentation solutions. For marine, Etteplan offers ship design and technical analysis and also performs hull inspections and structural consulting. The company has the ability to conduct basic and detailed design of any type of vessel. The service portfolio includes FEM analysis for different ship structures including global and local ultimate strength, stability and dynamic response calculations and analysis.

[www.etteplan.com](http://www.etteplan.com)

## E.U. -Adhoc Project Oy

E.U.- Adhoc Project Oy, established in 1999, provides interior outfitting and turn-key solutions. The company's service portfolio includes overall interior outfitting deliveries to vessels and business centers, cabin and bathroom modules, project management services for turn-key-contractors, restin-modules for short time accommodation needs, interior modules, steel constructions and HR services. The company is headquartered in Raisio, Finland, and has production facilities in Forssa, Finland.

[www.adhoc.fi](http://www.adhoc.fi)

## Evac Oy

Evac, established in 1979, offers integrated waste-, wastewater- and water management systems for the marine, offshore and building industries. The Evac Complete Cleantech Solution covers vacuum collection and wastewater treatment, fresh water generation as well as dry, wet and food waste management. The company is headquartered in Espoo, Finland.

[www.evac.com](http://www.evac.com)

## Fake Production Oy

Fake is a digital production studio specializing in image design, animation and effects for visual communications. The company has a development team with experience in making software for video games, simulation, physics, CAD and even life critical medical devices. This expertise is utilized to develop meaningful, immersive AR/VR/MR applications for various purposes such as entertainment, communication, training, design, architecture and manufacturing.

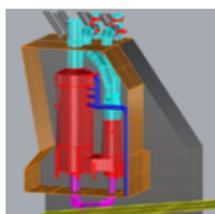

[www.fake.fi](http://www.fake.fi)

## Foreship Ltd.

Foreship Ltd., established in 2002, is a naval architect and marine engineering company with know-how in architecture, marine & structural engineering, interior & HVAC design and electrical engineering. The company's expertise includes cruise ships, ferries, RoRo vessels and cargo ships. Foreship's customers comprise cruise lines, shipyards, maritime suppliers as well as passenger, cargo and offshore shipowners. Foreship™ services covers shipbuilding from feasibility to delivery and beyond.

[www.foreship.com](http://www.foreship.com)

## **FSP Finnish Steel Painting Oy**

FSP Finnish Steel Painting Oy, established in 1964, offers industrial surface treatment and related engineering and value-added services. The company's service portfolio includes the surface treatment process throughout the product's life cycle; from defining operating conditions to surface treatment, inspections and post-warranty maintenance. The company is headquartered in Vantaa, Finland.

[www.fspcorp.com](http://www.fspcorp.com)

---

## **Furuno Finland Oy**

Furuno Finland Oy is a well-known manufacturer of integrated navigation bridges. Furuno's special expertise is the turn-key delivery consisting of design, manufacturing, installation, commissioning including full acceptance tests (FAT, HAT, SAT) and training. The company supplies to newbuildings and retrofits worldwide. Furuno also imports, supplies and provides installation and maintenance of navigation, communication and fish finding products and offers solutions for foreign and domestic vessels, yachts and surveillance systems for authorities.

[www.furuno.fi](http://www.furuno.fi)

---

## **Halton Marine Oy**

Halton Marine develops, manufactures and markets reliable, high-quality ventilation solutions specifically designed for ship building, oil & gas and energy industries. The company offers products and systems for ventilation fire safety, cabin ventilation, galley ventilation, laboratory ventilation, air intakes as well as central vacuum cleaning. Halton Marine's track record includes deliveries to over 150 major cruise ships, 200 oil & gas projects and 100 naval vessels.

[www.haltonmarine.com](http://www.haltonmarine.com)

## HELKAMA

### Helkama Bica Oy

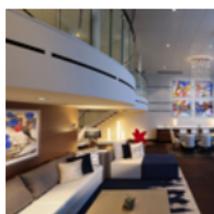

Helkama Bica Oy is a privately owned company established in 1905. The company has produced cables since the early 1980's and offers Marine, Flexible, Optical Fibre and Fire Resistant Cables.

[www.helkamabica.com](http://www.helkamabica.com)

### Hella Lighting Finland Oy

Hella Lighting Finland Oy is specialized in developing and manufacturing high quality LED-lightings for cruise ships and ferries. Hella products are used for providing general lighting for public areas, restaurants, spas, corridors and cabins. Own development and manufacturing enable flexible service and adequate tailoring to fit both newbuild and refurbishment projects. Hella Lighting's field-proven products have a wide global existence.

[www.hellamarine.com](http://www.hellamarine.com)

### Oy IBM Finland Ab

IBM is a technology company specialized in cloud platforms and information processing that utilizes artificial intelligence. The company supports the digital transformation of its customers and entire industries. For companies in the marine cluster, IBM offers solutions for backend, maintenance and operations systems. IBM technologies, such as visual and audio recognition, AI, cybersecurity and blockchain solutions, are used in products of the marine cluster.

[www.ibm.com/industries/manufacturing](http://www.ibm.com/industries/manufacturing)

## **IDC Global Services Oy**

IDC Global Services Oy is a turn-key supplier of heavy installations for the marine industry. The company specializes in technical area installations, scrubber installations, ballast water treatment, block manufacturing and hull works. In addition, IDC Global Services provides the manufacture of pipe, spool and other metal structures.

[www.idcconsorzio.com](http://www.idcconsorzio.com)

## **I.S. Mäkinen Oy**

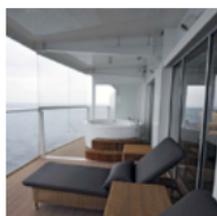

I.S. Mäkinen Oy specializes in cabin refurbishments for cruise ships and passenger ferries. In addition to professional refurbishment services, the company provides total deliveries for new vessels, including spare parts and product support all over the world after the ships have been launched. Over the past 15 years, Mäkinen has refurbished over 30 000 cabins.

[www.ismakinen.com](http://www.ismakinen.com)

## **Jukova Corporation Oy**

Jukova Corporation Oy provides turn-key deliveries or easy-to-install solutions for the leisure boating, street furniture (Jukova Brands), rolling stock (Décorian) and marine (Meridian) industries. Jukova's tailor-made maritime solutions include balcony modules, weathertight sliding doors, divider walls, windows, windshields and other public area glazings. In projects where large system deliveries are involved, Jukova is ready to take the overall responsibility from the early steps of design until the finished product is ready mounted in its place.

[www.jukova.com](http://www.jukova.com)

**KAEFER**

### **KAEFER Oy**

KAEFER's service portfolio includes insulation, accommodation, public spaces and catering. In the marine sector, KAEFER offers turn-key solutions for new builds and refits, from cruise liners and yachts to naval vessels. The company can operate as lead contractor for construction, servicing and refurbishment work in all areas of insulation, surface and passive fire protection, scaffolding, HVAC, interior outfitting and maintenance.

[www.kaefer.com](http://www.kaefer.com)

---

**Kavika**

### **Kavika Oy**

Kavika offers made-to-order cold and hot counters, freezers, refrigerators and kitchen and special fittings. All these products are designed by Kavika and installed by Kavika if requested. In addition, the product portfolio includes tables, racks, neutral temperature and service counters. With over 70 years of experience, Kavika has furnished stainless steel fittings and fixtures for more than 200 luxury liners (USPHS) and special-purpose vessels.

[www.kavika.fi](http://www.kavika.fi)

---

**KEMPPI**

### **Kemppi Oy**

Kemppi is a pioneering company within the welding industry. Kemppi's offering includes welding solutions - intelligent equipment, welding management software and expert services - for both demanding industrial applications and ready-to-weld needs. Headquartered in Lahti, Finland, Kemppi employs over 800 welding industry experts in 17 countries. Local expertise is available via Kemppi's global partner network covering over 60 countries.

[www.kemppi.com](http://www.kemppi.com)

## Koja Oy

Koja, established in 1935, offers air conditioning systems which improve energy efficiency and passenger comfort. The company delivers solutions for cabins, public areas and special spaces as well as ventilation for cargo hold.

[www.koja.fi](http://www.koja.fi)

Elevators  
Escalators

## KONE Hissit Oy

KONE provides marine solutions that combine industry-leading elevator and escalator technologies with world-class lifecycle support, backed up with an impressive track record of on time, on-budget delivery for shipbuilders. On board passenger vessels, smooth people flow is the key to ensuring that journeys are pleasant, reliable, and safe for everyone and KONE solutions on board help to do just that. The company's trusted marine specialists can serve customers in all major ports through KONE's global network.

[www.kone-marine.com](http://www.kone-marine.com)

## Kongsberg Maritime Finland Oy

Kongsberg specializes in developing advanced technologies, to provide extreme performance for extreme conditions. Working together as a global team, Kongsberg has created an integrated portfolio of solutions, for businesses, partners and nations operating from the depths of the sea; to outer space; to the digital frontier. The company's portfolio covers on- and offshore, merchant marine, subsea, navy, coastal marine, aquaculture, training services and more. Kongsberg's solutions are trusted by 30 000 vessels globally.

[www.kongsberg.com](http://www.kongsberg.com)

## Kvaerner

Kvaerner specializes in executing engineering, procurement and construction (EPC) projects. The company is recognized as one of the world leaders in delivering projects in challenging environments on time, with the right quality. All employees are the keystone in the work towards an injury and illness free workplace that does zero harm to the environment. Kvaerner head office is located in Oslo and subsidiaries in Russia, Canada and Finland.

[www.kvaerner.com](http://www.kvaerner.com)

---

## Laivasähkötyö Oy

Laivasähkötyö Oy, established in 1962, carries out electrical installations, maintenance and engineering for buildings, industry, ships and rolling stock. The company's product portfolio includes electric motors, frequency converters, belt and chain drives and LST lights, to mention some. Laivasähkötyö has engineered and performed electrification work for the marine and transportation industries and for the Finnish Defence Forces. The company is the oldest member of the LST Group.

[www.lst.fi](http://www.lst.fi)

---

## Lamor Corporation Ab

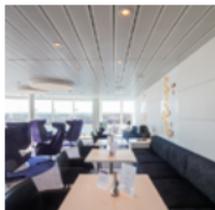

Lamor, headquartered in Finland, offers oil spill response and environmental solutions for a wide range of scenarios and climatic conditions. The company provides soil and water treatment services globally. Lamor's portfolio of products and services also includes industrial applications. The company has sold oil spill response equipment to 120 countries and more than 1 800 vessel mounted systems have been delivered to customers worldwide.

[www.lamor.com](http://www.lamor.com)

# Lautex®

## Oy Lautex Ab

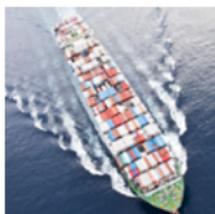

Oy Lautex Ab, established in 1951, manufactures suspended metal ceilings for the construction and shipbuilding industries. Especially ceilings for ship accommodation and public spaces, such as metal panels, profiles, tiles and gratings in aluminum or steel are the company's core competencies. In addition, the product range includes B-0 and B-15 fire classified ceilings, domes, beams and special ceilings. Ceiling materials are painted and coated according to client specifications. Lautex is located in Nummela, southern Finland.

[www.lautex.com](http://www.lautex.com)

---

## MacGregor Finland Oy

MacGregor is active in all marine segments and understands that maximum operative availability of equipment is vital to its customers. MacGregor offers solutions and services for handling marine cargoes, vessel operations, offshore loads, crude/LNG transfer and offshore mooring. It ensures that its customers can deliver on their contract promises and undertake work profitably, efficiently and with minimum impact on the environment. The company is also a partner in the One Sea ecosystem.

[www.macgregor.com](http://www.macgregor.com)

---

## Machine Technology Center Turku Ltd.

Machine Technology Center Turku Ltd. is a learning, training and development center focusing on future technologies and the management of production processes. The objective is to help companies improve their manufacturing processes and introduce more efficient production methods into use. The company's services include proto product design, product and production development, measuring and calibration, manufacturing and training. The facilities consist of high-tech laser, robot welding, sheet metal technologies, mechanization and production automation technologies.

[www.koneteknologiakeskus.fi](http://www.koneteknologiakeskus.fi)

## **MAN Energy Solutions Sverige AB, Finland Branch**

MAN offers large-bore diesel engines and turbomachinery for marine and stationary applications. The company designs two-stroke and four-stroke engines, gas and steam turbines as well as compressors. MAN Cryo is an LNG fuel-gas-system provider located in Sweden. MAN's range of goods includes marine propulsion systems, turbomachinery units and complete Power Plant solutions. Customers receive worldwide after-sales services under the MAN PrimeServ brand. MAN employs around 15 000 professionals at more than 100 international sites.

[www.sweden.man-es.com](http://www.sweden.man-es.com)

---

## **Marioff Corporation Oy**

Marioff is an innovator of high-pressure water mist fire protection technology. Marioff designs, develops, manufactures, installs and maintains HI-FOG® solutions that enhance fire safety on land and at sea globally. In addition to meeting the IMO requirements for fire suppression at sea, HI-FOG® keeps the damage in case of fire to a minimum. Thousands of vessels, from private yachts to vast cargo and cruise ships, are equipped with Marioff's trusted HI-FOG® system.

[www.marioff.com](http://www.marioff.com)

---

## **Merima Oy**

Merima Oy, established in 1987, offers state-of-the-art turn-key interior solutions for cruise and passenger ships globally. Merima provides a full range of turn-key services from architectural planning to final installation at the customer's location. The object is to provide the finest quality and flexible solutions, while managing every stage of the project. In addition, Merima offers steel to steel as well as visual turn-keys globally. The company has an own top-notch factory in Helsinki, Finland.

[www.merima.fi](http://www.merima.fi)

## Mesekon Oy

Mesekon Oy is a system provider and the company's mechanical workshop is specialized in advanced welding with a wide variety of steel materials. Mesekon manufactures medium-heavy and heavy steel structures including machining and product assembly (scrubbers, hull fittings, propeller housings, enclosures, frame bases). The staff is familiar with the handling of demanding welding standards (NORSOK, EN, ISO, ASME). Mesekon serves shipbuilding, offshore, oil & gas, power, cleantech, construction and other industries as well.

[www.mesekon.fi/en](http://www.mesekon.fi/en)

---

## Metalliasennus Huuhka Oy

Metalliasennus Huuhka Oy is known as one of the leading turn-key suppliers in the Finnish shipbuilding industry. The company has built restaurants, bars, casinos, lounges, specials shops, shopping arcades, cabin areas and laundry areas in luxury cruise ships and modern passenger ferries for over 30 years. Huuhka is located in Sauvo, southern Finland.

[www.huuhkaoy.com](http://www.huuhkaoy.com)

---

## Metos Oy Ab

Metos Kitchen Intelligence offers professional kitchen solutions with 90 years of experience in the sector. In addition to kitchen equipment, Metos provides planning, training and maintenance services. The company has an exhibition and training center, where chefs organize product presentations, cooking demonstrations and educational training with Metos equipment. Metos is an autonomous business group within the Italian ALI Group.

[www.metos.com](http://www.metos.com)

## Meyer Turku Oy

Meyer Turku Oy employs 2 000 and specializes in building highly complex, innovative and environmentally friendly cruise ships, car-passenger ferries and special vessels. Together with two sister shipyards in Germany, Meyer Werft and Neptun Werft, Meyer Turku is one of the world's leading cruise ship builders. The company is currently building cruise ships for Costa Crociere and Carnival Cruise Lines. The order book also includes cruise ships for Royal Caribbean International and TUI Cruises.

[www.meyerturku.fi](http://www.meyerturku.fi)

---

## Mobimar Ltd.

Mobimar Ltd. is a boatyard and engineering company specialized in workboat and submarine design and building. The company's vessels are suited to various applications like research, rescue, fairway service, oil recovery and crew transfer. Mobimar also provides submarines for the tourist industry. In addition, the company designs and accomplishes modular cruise ship systems. Mobimar is based in Turku on the southwest coast of Finland.

[www.mobimar.com](http://www.mobimar.com)

---

## NAPA Oy

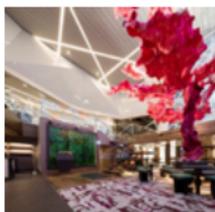

NAPA provides software, services and data analysis for increased safety, efficiency and productivity in ship design and operation. NAPA Design Solutions offer trusted 3D model-based design software for the shipbuilding industry. NAPA Shipping Solutions has tools for ship data management, ship and fleet-wide performance analysis, and for the optimization of route, speed and trim. NAPA Safety Solutions provide loading and stability systems, including flooding emergency and decision support solutions.

[www.napa.fi](http://www.napa.fi)

### Oy NIT Naval Interior Team Ltd

Oy NIT Naval Interior Team Ltd, established in 2000, focuses especially on interior installations, insulation, electrical installation, piping and HVAC for passenger ships. The company executes newbuilding turn-key projects, refit turn-key projects, subcontracting and engineering, procurement and supervision projects. NIT is also expanding operations by taking on offshore and onshore construction projects. The company's main office is located in Piikkiö, Finland.

[www.nit.fi](http://www.nit.fi)

---

### nora flooring systems Oy

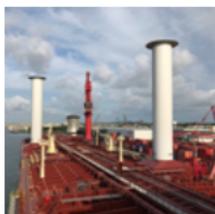

nora flooring systems, established in 1938, develops, produces and markets resilient rubber floors for various environments, including healthcare, industry, shops and transportation. The company is headquartered in Weinheim, Germany. A selection of noraplan and norament products has been tested in accordance with IMO resolution and they comply with the fire-protection requirements of the Marine Equipment Directive.

[www.nora.com](http://www.nora.com)

---

### Norsepower Oy Ltd

Norsepower Oy Ltd, established in 2012, offers auxiliary wind propulsion solutions for the global maritime industry. The company's main product is Norsepower Rotor Sail Solution, which is an easy to use fuel saving technology, supporting the decarbonization of the shipping industry.

[www.norsepower.com](http://www.norsepower.com)

## Oilon Oy

Oilon Oy manufactures burners and combustion systems, industrial heat pumps and ground source heat pumps. Oilon is one of the leading burner manufacturers for the marine industry. The company's burners are suitable for nearly every possible fuel used in the marine industry, from non sulphur light fuel oils up to 700 cSt at 50 °C heavy fuel oil and also to gas.
