Finnish Marine Industries

Finnish Marine Industries

Finnish Marine Industries is a co-operation forum for high-technology maritime solution providers, leading marine equipment manufacturers, turn-key suppliers, designers, software and system providers as well as shipbuilding, ship repair and offshore yards.

This directory presents the association's member companies and the wide range of high-technology and services the Finnish marine industry offers.

marineindustries.fi

FACTS & FIGURES

Finnish marine industry
employs 31 000 people

Annual turnover
9 billion €

1 100 companies
at the branch

Source: Brahea Centre at the University of Turku

ABB Oy

ABB (ABBN: SIX Swiss Ex) is a pioneering technology company with a comprehensive offering for digital industries and with a history of innovation spanning more than 130 years. ABB business line Marine & Ports is transforming the marine industry through electric, digital and connected solutions. ABB's innovative technologies are redefining the future, bringing new levels of reliability, efficiency and sustainability to shipping and making ports and terminals safer, greener and more productive.

www.abb.com/marine

AirD Fin Oy

AirD Fin Oy, established in 2010, specializes in designing, manufacturing, selling and marketing smart ventilation head units. The smart ventilation head units offer high air quality and energy efficient demand based ventilation in various environments from real estates to cruise ships. AirD solution is designed according to the customer's specifications and requirements of the interior. Data collection, energy efficiency, easy installation and maintenance and good design are the core of AirD Fin Oy.

www.aird.fi

Aker Arctic Technology Oy

Aker Arctic Technology Oy specializes in development, design, engineering, consulting and testing services for ice-going vessels, icebreakers, arctic cruise & expedition vessels, offshore marine structures, marine transport solutions and ports. The company operates a special test facility in Helsinki. In addition, Aker Arctic markets and sells complete ice-going ship projects. The company's past references include icebreakers, Arctic or Antarctic research vessels, a variety of cargo vessels and concepts for offshore structures.

www.akerarctic.fi

Alfa Laval Aalborg Oy

Alfa Laval Aalborg is specialized in marine boilers with Aalborg™ products. The company's innovative solutions for heat recovery systems and fired boilers in cruise vessels improve customers' energy efficiency and emissions reductions, as well as savings in fuel costs. Through the global Alfa Laval group there is available a wide variety of products for heat transfer, separation and fluid handling for the marine industry. Alfa Laval Aalborg Oy is a member of Cleantech Finland.

www.alfalaval.com

Allstars Engineering Oy

Allstars Engineering has a long-term experience of comprehensive project management and design engineering services for the marine, offshore, process and machine technology industries. The company's core competence lies in project management, cruise ship, ropax and icebreaker basic and detail design. Renowned Finnish engineering education combined with extensive experience makes Allstars a reliable partner that delivers tailor-made and high-class solutions to meet customer needs. During a 30 year-long history Allstars has made a profound impact on the maritime industry.

www.aegroup.fi

ALMACO Group Oy

ALMACO is a full-turnkey contractor for the construction, modernization and maintenance of galleys, provision stores, refrigeration machinery, laundries, cabins and living quarters for the marine and offshore industries. ALMACO delivers advanced solutions such as galley energy management and refrigeration equipment monitoring systems, among others. The company has carried out +300 projects, built or modernized the catering areas on +200 vessels and delivered over 25 000 cabins since it was established in 1998.

www.almaco.cc

Antti-Teollisuus Oy

Antti-Teollisuus Oy, established in 1952, is a family-owned business manufacturing metal products. The company's product portfolio includes accommodation and interior fire and sound reduction doors for cruise, ferry and offshore applications. Antti-Teollisuus has produced more than quarter of a million doors for more than 300 ships and offshore applications. Production facilities are located in Salo, south-western Finland.

www.antti-teollisuus.fi

APX-Metalli Oy

APX-Metalli Oy, established in 1986, manufactures metal constructions and has locations in Kaarina and Pyhäranta in Finland. Oy Western Shipyard Ltd, established in 1994, is APX-Metalli Oy's subsidiary and 100 % in domestic ownership. The shipyard's main industry is the repair work and docking of vessels and floating constructions, but also newbuildings are included. Both APX-Metalli and WSY specialize in steel and aluminium products, welded structures, installation and repair work and turn-key deliveries. WSY is located in Teijo, in southern Finland.

www.apx.fi

AQ Trafotek Oy

AQ Trafotek, established 1983, is an independent manufacturer in inductive product solutions for energy generation, distribution and use. The company designs and produces transformers, reactors and electrical filters for marine, oil & gas, renewable energy and industrial automation. Hundreds of vessels, from cruise liners and electric ferries to offshore rigs and platforms, rely on AQ Trafotek solutions for high-quality energy out at sea. AQ Trafotek is headquartered in Finland, and has production facilities in Finland, Estonia, China and Brazil.

www.trafotek.fi

Atexor Oy

Atexor Oy develops and manufactures EX-lighting and power distribution systems for customers in the oil and gas industries. These products can be used in oil refineries, drill ships, jack-up rigs, FPSO's, semi-submersible rigs and alike. In addition, Atexor offers products with GOST, DNV and other product relevant certifications. All products are designed and manufactured in Finland. Atexor is owned by Teknower.

www.atexor.com

Beacon Finland Ltd Oy

Beacon Finland Ltd Oy, established in 1987, is a naval architectural consulting company located in Rauma, Finland. Beacon works primary with ship-owners, shipyards and ship equipment manufacturers. It provides ship design, design and sales of ship equipment for the offshore industry (drilling FPSO, FLNG) and the marine transportation industry (i.e. JAK® ATB Coupling System), as well as supervision and management of ship repair and conversions. In addition, Beacon offers related R&D, design, noise & vibration and strength analysis services.

www.beaconfinland.com

Bertel O. Steen Power Solutions Finland Oy

Bertel O. Steen Power Solutions is part of privately owned Bertel O. Steen group in Norway, and the headquarter is located in Bergen. The company's main business is supply and life-cycle support of the diesel and gas power systems from Rolls-Royce's business unit Power Systems for commercial marine and industrial applications as well emergency power systems as for critical infrastructure applications. It also has hybrid and full electric propulsion solution for work boats, passenger vessels and ferries.

www.bospower.com

Bluetech Finland Ltd

Bluetech Finland Ltd is a specialist in cruise, ro-pax and cargo ship design, offering engineering services for ship owners, shipyards and marine suppliers. Expertise comprises all ship design disciplines including concept, basic and detail design. Bluetech also develops own cargo ship designs with several units in operation. The company was established in February 2013 and is based in Helsinki. Additionally, Bluetech has offices in Vietnam, India and China.

www.bluetechfinland.com

CADMATIC Oy

CADMATIC develops digital and intelligent 3D-based design, engineering and information management software solutions for the marine, process, and construction industries. CADMATIC Marine Design software is a complete solution for large, medium-sized and small shipyards, design and engineering offices, and subcontractors. With CADMATIC you can complete the most complex projects, regardless whether you are doing initial design, basic design, detail design, or generating production information.

www.cadmatic.com

Caverion Industria Oy

Caverion designs, builds, operates and maintains intelligent and energy-efficient solutions for buildings, industries and infrastructures in Northern, Central and Eastern Europe. In the marine industry, Caverion offers design of electrical and piping systems, installation and maintenance services for different types of vessels. In Finland and in Denmark, Caverion has participated in the construction of a wide range of vessels; from luxury cruise ships to advanced container ships and vessels used by the navy.

www.caverion.com

Comatec Group

Comatec Group, established in 1986, provides engineering design, project management and expert services for the technology industry. In the marine sector, Comatec offers electrical and automation design from the sales project stage through basic design to detail design. In addition, Comatec provides mechanical design, animations and virtual reality environments, and structural FEM analysis. The company's special areas of expertise are cruise liners and icebreaking vessels.

www.comatec.fi

Deltamarin Ltd

Deltamarin specialises in ship design, offshore engineering and construction services for maritime and offshore industries worldwide. The company's expertise covers fit-for-purpose designs in all ship types and offshore vessels. Deltamarin delivers services from concept design development and engineering to project management. For operating vessels, it offers a wide range of life-long support services. In addition, Deltamarin develops own concepts and platforms for different vessel types (e.g. ro-pax and cargo).

www.deltamarin.com

EIE Maskin Oy

EIE Maskin Group is a distributor of mechanical transmission components in Sweden, Norway and Finland. The company's main market is within marine and offshore applications. EIE Maskin supplies components such as clutches and brakes, both for propulsion and winch applications, as well as rack and pinion components. In addition, the company provides heavy duty linear rollers and profiles for ramps, hatches and other similar applications, as well as other components upon request.

www.eie.fi

Elomatic Consulting & Engineering Oy

Elomatic Consulting & Engineering Oy specializes in a wide range of design, engineering and project management tasks for a comprehensive range of vessel types. Elomatic has extensive know-how in cruise ships and ferries, special vessels, conversions and retrofits, marine concepts and information management solutions. The company's services cover all disciplines and the full life cycle of the product from feasibility studies and pre-design to detail design, production support, site supervision and lifecycle support.

www.elomatic.com

Emmanoa Oy

Emmanoa Oy offers consulting, advisory, market analysis/market support, business planning/execution and IPR services related to shipbuilding and other maritime industry businesses. The company has a background of 50 years in shipbuilding with the global coverage of market, international cooperation and technology. The specific areas of expertise are related to cruise, ferry and arctic businesses.

Eero Mäkinen
eero.k.makinen@gmail.com

Etteplan Oyj

Etteplan Oyj offers industrial equipment and facility engineering, embedded systems, IoT and technical documentation solutions. For marine, Etteplan offers ship design and technical analysis and also performs hull inspections and structural consulting. The company has the ability to conduct basic and detailed design of any type of vessel. The service portfolio includes FEM analysis for different ship structures including global and local ultimate strength, stability and dynamic response calculations and analysis.

www.etteplan.com

E.U.-Adhoc Project Oy

E.U.-Adhoc Project Oy, established in 1999, provides turn-key solutions and interior outfitting to vessels and business centers. The company's service portfolio includes also project management and HR services for turn-key-contractor, cabin, bathroom, sleeping and other interior modules. Main office and production facilities are located in Forssa, Finland.

www.adhoc.fi

Evac Oy

Evac is one of the world's leading providers of integrated water and waste management systems, as well as corrosion-protection systems, for the marine, offshore, and building industries. Evac's cutting-edge solutions and services have been helping leading global players in these industries to significantly reduce their environmental footprint for 40 years. The company is headquartered in Helsinki, Finland.

www.evac.com

Foreship Ltd.

Foreship Ltd., established in 2002, is a naval architect and marine engineering company with know-how in architecture, marine & structural engineering, interior & HVAC design and electrical engineering. The company's expertise includes cruise ships, ferries, RoRo vessels and cargo ships. Foreship's customers comprise cruise lines, shipyards, maritime suppliers as well as passenger, cargo and offshore shipowners. Foreship™ services covers shipbuilding from feasibility to delivery and beyond.

www.foreship.com

FSP Finnish Steel Painting Oy

FSP Finnish Steel Painting Oy, established in 1964, offers industrial surface treatment and related engineering and value-added services. The company's service portfolio includes the surface treatment process throughout the product's life cycle; from defining operating conditions to surface treatment, inspections and post-warranty maintenance. The company is headquartered in Vantaa, Finland.

www.fspcorp.com

Furuno Finland Oy

Furuno Finland Oy is a well-known manufacturer of integrated navigation bridges. Furuno's special expertise is the turn-key delivery consisting of design, manufacturing, installation, commissioning including full acceptance tests (FAT, HAT, SAT) and training. The company supplies to newbuildings and retrofits worldwide. Furuno also imports, supplies and provides installation and maintenance of navigation, communication and fish finding products and offers solutions for foreign and domestic vessels, yachts and surveillance systems for authorities.

www.furuno.fi

Halton Marine Oy

Halton Marine develops, manufactures and markets reliable, high-quality ventilation solutions specifically designed for ship building, oil & gas and energy industries. The company offers products and systems for ventilation fire safety, cabin ventilation, galley ventilation, laboratory ventilation, air intakes as well as central vacuum cleaning. Halton Marine's track record includes deliveries to over 150 major cruise ships, 200 oil & gas projects and 100 naval vessels.

www.halton.com

HELKAMA

Helkama Bica Oy

Helkama Bica Oy is a privately owned company established in 1905. The company has produced cables since the early 1980's and offers Marine, Flexible, Optical Fibre and Fire Resistant Cables.

www.helkamabica.com

Hella Lighting Finland Oy

Hella Lighting Finland Oy is specialized in developing and manufacturing high quality LED-lightings for cruise ships and ferries. Hella products are used for providing general lighting for public areas, restaurants, spas, corridors and cabins. Own development and manufacturing enable flexible service and adequate tailoring to fit both newbuild and refurbishment projects. Hella Lighting's field-proven products have a wide global existence.

www.hellamarine.com

Helsinki Shipyard Oy

Helsinki Shipyard Oy builds advanced special products and develops demanding marine technology. The shipyard has long experience in designing and building passenger and cruise vessels. Helsinki Shipyard is also known for innovative icebreakers and other special vessels for arctic conditions and cold environment. The shipbuilding company started its operation in May 2019 when the shipyard was transferred to new ownership. Helsinki Shipyard is located in the downtown of Helsinki, Finland. The shipyard has a 280 m long covered graving dock.

www.helsinkishipyard.fi

Oy IBM Finland Ab

IBM is a technology company specialized in cloud platforms and information processing that utilizes artificial intelligence. The company supports the digital transformation of its customers and entire industries. For companies in the marine cluster, IBM offers solutions for backend, maintenance and operations systems. IBM technologies, such as visual and audio recognition, AI, cybersecurity and blockchain solutions, are used in products of the marine cluster.

www.ibm.com/industries/manufacturing

MAKINEN

I.S. Mäkinen Oy

MAKINEN corporation is known as one of the leading interior turnkey project contractors specializing in cabin refurbishments for cruise ships and passenger ferries operating worldwide. In addition to professional refurbishment services, the company provides total deliveries for new vessels, including spare parts and product support all over the world after the ships have been launched. During the past 5 years MAKINEN has refurbished over 40 000 cabins.

www.ismakinen.com

JALmare

Jalmare Oy

Jalmare Oy is specialized in design and engineering, providing workforce, offering turnkey solutions and delivering prefabricated components. Jalmare brings together knowhow, expertise and best practices in Finnish and Romanian shipbuilding industry. Head office of the group is located in Turku, Finland. Romanian operations of the company stand in Constanta on the coast of Black Sea. In addition to home markets, the group operates global as well.

www.jalmare.com

Jukova Corporation Oy

Jukova Corporation Oy provides turn-key deliveries or easy-to-install solutions for the leisure boating, street furniture (Jukova Brands), rolling stock (Décorian) and marine (Meridian) industries. Jukova's tailor-made maritime solutions include balcony modules, weathertight sliding doors, divider walls, windows, windshields and other public area glazings. In projects where large system deliveries are involved, Jukova is ready to take the overall responsibility from the early steps of design until the finished product is ready mounted in its place.

www.jukova.com

KAEFER

KAEFER Oy

KAEFER's service portfolio includes insulation, accommodation, public spaces and catering. In the marine sector, KAEFER offers turn-key solutions for new builds and refits, from cruise liners and yachts to naval vessels. The company can operate as lead contractor for construction, servicing and refurbishment work in all areas of insulation, surface and passive fire protection, scaffolding, HVAC, interior outfitting and maintenance.

www.kaefer.com

Kavika Oy

Kavika offers visual turnkey deliveries for marine catering areas with strict hygiene requirements. Fixtures for galleys and restaurants typically include stainless cold and hot counters, freezers and refrigerators. The company has special emphasis in designing USPH compliant solutions offering also installation and after sales services. With over 70 years of experience Kavika has furnished fittings and fixtures for more than 200 luxury liners and special purpose vessels.

www.kavika.fi

Kemppi Oy

Kemppi is a pioneering company within the welding industry. Kemppi's offering includes welding solutions - intelligent equipment, welding management software and expert services - for both demanding industrial applications and ready-to-weld needs. Headquartered in Lahti, Finland, Kemppi employs over 800 welding industry experts in 17 countries. Local expertise is available via Kemppi's global partner network covering over 60 countries.

www.kemppi.com

Koja Oy

Koja, established in 1935, offers air conditioning systems which improve energy efficiency and passenger comfort. The company delivers solutions for cabins, public areas and special spaces as well as ventilation for cargo hold.

www.koja.fi

Elevators
Escalators

KONE Hissit Oy

KONE provides marine solutions that combine industry-leading elevator and escalator technologies with world-class lifecycle support, backed up with an impressive track record of on time, on-budget delivery for shipbuilders. On board passenger vessels, smooth people flow is the key to ensuring that journeys are pleasant, reliable, and safe for everyone and KONE solutions on board help to do just that. The company's trusted marine specialists can serve customers in all major ports through KONE's global network.

www.kone-marine.com

KONGSBERG

Kongsberg Maritime Finland Oy

Kongsberg specializes in developing advanced technologies, to provide extreme performance for extreme conditions. Working together as a global team, Kongsberg has created an integrated portfolio of solutions, for businesses, partners and nations operating from the depths of the sea; to outer space; to the digital frontier. The company's portfolio covers on- and offshore, merchant marine, subsea, navy, coastal marine, aquaculture, training services and more. Kongsberg's solutions are trusted by 30 000 vessels globally.

www.kongsberg.com

Kvaerner

Kvaerner specializes in executing engineering, procurement and construction (EPC) projects. The company is recognized as one of the world leaders in delivering projects in challenging environments on time, with the right quality. All employees are the keystone in the work towards an injury and illness free workplace that does zero harm to the environment. Kvaerner head office is located in Oslo and subsidiaries in Russia, Canada and Finland.

www.kvaerner.com

Laivasähkötyö Oy

Laivasähkötyö Oy, established in 1962, carries out electrical installations, maintenance and engineering for buildings, industry, ships and rolling stock. The company's product portfolio includes electric motors, frequency converters, belt and chain drives and LST lights, to mention some. Laivasähkötyö has engineered and performed electrification work for the marine and transportation industries and for the Finnish Defence Forces. The company is the oldest member of the LST Group.

www.lst.fi

Lamor Corporation Ab

Lamor, headquartered in Finland, offers oil spill response and environmental solutions for a wide range of scenarios and climatic conditions. The company provides soil and water treatment services globally. Lamor's portfolio of products and services also includes industrial applications. The company has sold oil spill response equipment to 120 countries and more than 1 800 vessel mounted systems have been delivered to customers worldwide.

www.lamor.com

Oy Lautex Ab

Oy Lautex Ab, established in 1951, manufactures suspended metal ceilings for the construction and shipbuilding industries. Especially ceilings for ship accommodation and public spaces, such as metal panels, profiles, tiles and gratings in aluminum or steel are the company's core competencies. In addition, the product range includes B-0 and B-15 fire classified ceilings, domes, beams and special ceilings. Ceiling materials are painted and coated according to client specifications. Lautex is located in Nummela, southern Finland.

www.lautex.com

MacGregor Finland Oy

MacGregor is a specialist in intelligent maritime cargo and load handling solutions for shipbuilders, shipowners and operators. The company offers engineering and lifetime service solutions for merchant cargo and passenger vessels; offshore and renewable energy sectors; research and marine-resource vessels; and ports and terminals, to mention some. MacGregor provides eco-efficient solutions and services that help to optimise cargo and load handling flows, improve safety, extend equipment service life, and reduce environmental impact and emissions.

www.macgregor.com

Machine Technology Center Turku Ltd.

Machine Technology Center Turku Ltd. is a learning, training and development center focusing on future technologies and the management of production processes. The objective is to help companies improve their manufacturing processes and introduce more efficient production methods into use. The company's services include proto product design, product and production development, measuring and calibration, manufacturing and training. The facilities consist of high-tech laser, robot welding, sheet metal technologies, mechanization and production automation technologies.

www.koneteknologiakeskus.fi

MAN Energy Solutions Sverige AB, Finland Branch

MAN offers large-bore diesel engines and turbomachinery for marine and stationary applications. The company designs two-stroke and four-stroke engines, gas and steam turbines as well as compressors. MAN Cryo is an LNG fuel-gas-system provider located in Sweden. MAN's range of goods includes marine propulsion systems, turbomachinery units and complete Power Plant solutions. Customers receive worldwide after-sales services under the MAN PrimeServ brand. MAN employs around 15 000 professionals at more than 100 international sites.

www.sweden.man-es.com

Marioff Corporation Oy

Marioff's HI-FOG® fire suppression system is currently installed on more than 2,000 vessels, ranging from private yachts to vast cruise ships and navy vessels. The smart architecture of HI-FOG – one panel controls the entire ship's system – allows it to be used quickly and efficiently. Furthermore, it is able to protect every part of the ship, including accommodation, galleys, service areas, Ro-Ro decks and machinery spaces.

www.marioff.com

Merima Oy

Merima Oy, established in 1987, offers state-of-the-art turn-key interior solutions for cruise and passenger ships globally. Merima provides a full range of turn-key services from architectural planning to final installation at the customer's location. The object is to provide the finest quality and flexible solutions, while managing every stage of the project. In addition, Merima offers steel to steel as well as visual turn-keys globally. The company has an own top-notch factory in Helsinki, Finland.

www.merima.fi

Mesekon Oy

Mesekon Oy is a system provider and the company's mechanical workshop is specialized in advanced welding with a wide variety of steel materials. Mesekon manufactures medium-heavy and heavy steel structures including machining and product assembly (scrubbers, hull fittings, propeller housings, enclosures, frame bases). The staff is familiar with the handling of demanding welding standards (NORSOK, EN, ISO, ASME). Mesekon serves shipbuilding, offshore, oil & gas, power, cleantech, construction and other industries as well.

www.mesekon.fi/en

Metalliasennus Huuhka Oy

Metalliasennus Huuhka Oy is known as one of the leading turn-key suppliers in the Finnish shipbuilding industry. The company has built restaurants, bars, casinos, lounges, specials shops, shopping arcades, cabin areas and laundry areas in luxury cruise ships and modern passenger ferries for over 30 years. Huuhka is located in Sauvo, southern Finland.

www.huuhkaoy.com

Metos Oy Ab

Metos Marine is one of the leading suppliers of galley and laundry equipment to vessels worldwide. Metos equipment is used in more than 6 000 ships including icebreakers, naval ships, cargo vessels, passenger ferries and offshore. In-house production of most equipment guarantees consistent quality control, efficient material handling and short delivery times. The company provides equipment for cooking, refrigeration, food serving, dishwashing, waste handling and laundry.

www.metos.com

Meyer Turku Oy

Meyer Turku Oy employs 2 000 and specializes in building highly complex, innovative and environmentally friendly cruise ships, car-passenger ferries and special vessels. Together with two sister shipyards in Germany, Meyer Werft and Neptun Werft, Meyer Turku is one of the world's leading cruise ship builders. The company is currently building cruise ships for Costa Crociere and Carnival Cruise Lines. The order book also includes cruise ships for Royal Caribbean International and TUI Cruises.

www.meyerturku.fi

Mobimar Ltd.

Mobimar Ltd. is a boatyard and engineering company specialized in workboat and submarine design and building. The company's vessels are suited to various applications like research, rescue, fairway service, oil recovery and crew transfer. Mobimar also provides submarines for the tourist industry. In addition, the company designs and accomplishes modular cruise ship systems. Mobimar is based in Turku on the southwest coast of Finland.

www.mobimar.com

NAPA Oy

NAPA provides software, services and data analysis for increased safety, efficiency and productivity in ship design and operation. NAPA Design Solutions offer trusted 3D model-based design software for the shipbuilding industry. NAPA Shipping Solutions has tools for ship data management, ship and fleet-wide performance analysis, and for the optimization of route, speed and trim. NAPA Safety Solutions provide loading and stability systems, including flooding emergency and decision support solutions.

www.napa.fi

Oy NIT Naval Interior Team Ltd

NIT specializes in turnkey interior design and construction contracts for cruise ships and ferries. NIT has built great spaces for 20 years: passenger and crew areas, restaurants, nightclubs, spas and saunas, including technical background work such as insulation, electrical installation, piping and HVAC. NIT combines planning, procurement and installation into a versatile and complete service that performs even in the toughest situations – without compromising quality or highly specified requirements.

www.nit.fi

nora flooring systems Oy

The shipbuilding and offshore industry demand unique and specific flooring solutions. nora® floor coverings meet the specific demands made on floor coverings for interior use in all types of vessels as well as in the offshore industry worldwide. nora offers a selection of IMO-Certified and Coast Guard Approved flooring solutions to meet the demands of different applications.

www.nora.com

Norsepower Oy Ltd

Norsepower Oy Ltd, established in 2012, offers auxiliary wind propulsion solutions for the global maritime industry. The company's main product is Norsepower Rotor Sail Solution, which is an easy to use fuel saving technology, supporting the decarbonization of the shipping industry.

www.norsepower.com

Oilon Oy

For more than 50 years Oilon has supplied combustion solutions for various marine applications such as steam and water boilers, thermal oil heaters and waste incinerators. Heavy oil, marine diesel oil, marine gas oil, ultra-low sulphur marine gas oil, natural gas (LNG), methanol, even VOC gases, you name it! Whether you need a ship or an offshore installation, Oilon can offer you a combustion solution!

www.oilon.com

Onninen Oy

Onninen, established in 1913, provides material and information flow solutions to contractors, industries, public organizations, technical product retailers and suppliers. The company enables customers to concentrate on their core business by providing technical specialists and material services. The service portfolio includes e-commerce services, logistics services and project services. Onninen Oy is part of Kesko Group and headquartered in Helsinki, Finland.

www.onninen.fi

Orsap Oy Ltd

Orsap Oy Ltd, established in 1991, is a turn-key contractor specialized in complete interior deliveries of public and cabin areas and partial deliveries for luxury cruise liners. The company holds references for luxury suites, cabin areas, main staircases, restaurants, galleys, conference areas and prefabricated office and bathroom modules. In addition, Orsap provides HVAC, piping and AC-room installations. The company's main office and prefabrication workshop are located in Raisio, Finland.

www.orsap.fi

Parmarine Ltd
